

Semi-Cylinder Bed Needle feed Machine
For Jeans And Twill

FBX1106WP/DD

FBX1106WP, cylinder bed, 6 needle double chain stitch machine with needle feed. It is designed for sewing waistbands of medium heavy to heavy material such as jeans and working pants. As needle feed and lower feed are linked, both feeding amounts can be adjusted at the same time by push button operation. This time an additional new rear puller is available. It is possible to adjust the momentum of each by driving separately up and lower puller.

Features Of The Machine

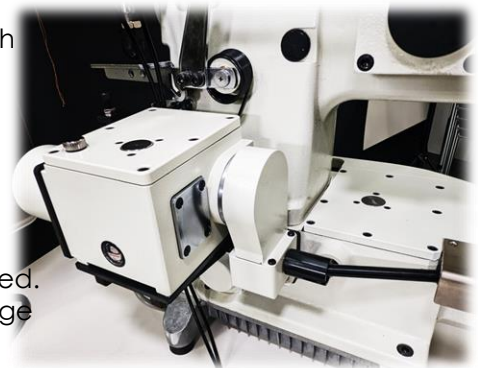

● Divided Rubber puller

Rubber pullers are used for both upper and lower pullers. Reduces over-running and gives uniformed stitch.

● Puller drive system

The pullers are driven by a unique drive system, and each can be easily adjusted. This reduces sewing slippage in the upper and lower fabrics.

● Semi-cylinder bed

For easy operation and increase in productivity.
(Circumference: 425mm)

● Turn down bracket

For attaching folder for waist-banding operation.

● Oil filter system

Purifies the oil from impurity thus maintaining a cleaner engine, and this in turn helps to preserve machine.

Model Name	Application	Material	Needle	No. of threads	Needle gauge	Needle bar stroke	Stitch length	Diff.Feed ratio	Presser foot lift	Operating speed
