

2 needle, flatbed, double chain stitch machine for tape attachment

NL5802GL-TC1-S-DD

Prototype

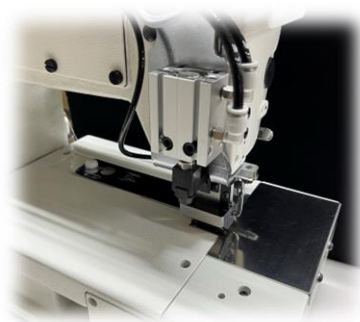

2-needle, flatbed, double chain stitch machine, for tape-attaching with auto cutter.

Features

Automatic tape cutting function

1. Start sewing and sew the tape.
2. When the sensor detects the end of fabric sewing, it automatically cuts the tape.
3. Start the next sewing.

- New oil seal prevent your garment form oil
- Long lasting DLC coated needle bar

*The distance to the cut can be specified by the number of stitches after the sensor no longer detects it..
